Loans and advances are carried at book value as the amount of ultimate realization cannot be determined at this date.

No provision is made for commitments under construction contracts in force at March 31, 1967. Such future construction is chargeable to appropriations in the years in which the work is actually performed.

In my opinion the statement of financial condition is properly drawn up so as to show the true position of the Province of British Columbia at March 31, 1967, and is in accordance with the books of the Province.

REPORT OF THE AUDITORS

The Lieutenant-Governor in Council, Province of British Columbia:

We have examined the balance-sheet of British Columbia Hydro and Power Authority as at March 31, 1967, and the related statement of net income for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Authority as at March 31, 1967, and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

PRICE WATERHOUSE & CO., Chartered Accountants.

NOTE 2—GUARANTEE BY PROVINCE OF BRITISH COLUMBIA.—The Government of the Province of British Columbia has unconditionally guaranteed the principal and interest of the long-term debt and parity development bonds.

NOTE 3—INTEREST.—Included in interest and other costs on debt is \$1,726,824 for amortization of discount and expense on long-term debt and parity development bonds, and a deduction of \$2,319,699 for income from sinking fund investments. The interest rate on parity development bonds was increased from 5 to 5½ per cent effective September 1, 1966.

BRITISH COLUMBIA HYDRO AND POWER AUTHORITY—Continued**NOTES TO FINANCIAL STATEMENTS AS AT MARCH 31, 1967—Continued**

NOTE 4—COLUMBIA RIVER TREATY.—The Authority is the Canadian entity for purposes of the Columbia River Treaty between Canada and the United States and is required to construct three storage dams—Duncan, Arrow, and Mica. Canada's entitlement to half the increased power generation in the United States resulting from the construction of the three dams was sold to the Columbia Storage Power Exchange for periods of 30 years from the scheduled dates of completion of the respective dams. As a result of this sale, the Government of British Columbia received the sum of \$273,291,661. This amount was transferred to the Authority on September 16, 1964, and, with interest in the amount of \$38,615,069, aggregated \$311,906,730 as at March 31, 1967. This sum has been applied as follows:—

Investments and accrued interest:

Province of Quebec 5.05 per cent note maturing December 1, 1967	\$40,000,000
Province of Quebec 5.05 per cent note maturing December 15, 1968	20,000,000
Kinross Mortgage Corporation 5.67 per cent note maturing September 18, 1967— guaranteed by Canadian Imperial Bank of Commerce	25,000,000
Accrued interest receivable	193,370
	<hr/>
	\$85,193,370
Funds temporarily advanced to the Authority for general purposes, with interest at 5½ per cent	36,981,561
	<hr/>
	\$122,174,931
Expenditures on Duncan, Arrow, and Mica storage projects to March 31, 1967, including interest during construction	189,731,799
	<hr/>
	<u>\$311,906,730</u>

As operations of the storage dams are commenced, amounts aggregating \$64,400,000 (United States dollars) will be receivable by instalments by the Government of British Columbia for providing flood control, subject to reduction of the amount receivable if full operation of any storage dam is not commenced within the time required by the treaty.

If these storage dams are not completed so as to be fully operative within agreed dates, the Authority is liable under certain covenants to make compensation to the Columbia Storage Power Exchange. The Authority also has obligations relating to the operation and maintenance of these storage dams.

NOTE 5—STABILIZATION OF RATES AND CONTINGENCY RESERVE:

Balance as at March 31, 1966	\$54,096,126
Net income for the year ended March 31, 1967	9,350,954
	<hr/>
Balance as at March 31, 1967	<u>\$63,447,080</u>

NOTE 6—PENSION PLANS.—Substantially all employees of the Authority are covered under existing contributory pension plans and a new contributory plan introduced, effective January 1, 1965. Current services are being provided for by payment to all the plans, and provision has been made for all past service costs under these plans with the exception of those relating to the new plan. Employees may elect, by a date to be fixed by the Authority, to transfer from existing plans to the new plan. Some transfers will depend upon a re-examination being made of recent amendments to the existing plans and of their relationship to the Canada Pension Plan. Until it is known how many employees will transfer to the new plan, the amount of the past service costs of this plan cannot be determined.

NOTE 7—COMMITMENTS.—In addition to the general commitment to construct the three storage dams on the Columbia River (Note 4) (the final costs of which cannot yet be determined), in respect of which the uncompleted portions of contracts entered into as at March 31, 1967, amounted to a total of \$50,000,000, other commitments and contracts of the Authority for capital projects and inventories of materials and supplies aggregated approximately \$239,000,000 as at March 31, 1967.

The accounts of the Land Settlement Board for the year ended December 31, 1966, have been examined under my direction. Assets are shown at book value, as the realizable value of unsold land and balances due to the Board cannot at the present time be determined. Arrears of mortgages, agreements for sale, overdue interest, and accounts receivable amount to \$175,574.77. The amount due from the Sumas Drainage, Dyking, and Development District is subject to the provisions of the *Dyking Assessments Adjustment Act, 1947*, and the *Dyking Assessments Adjustment Act, 1962*. Except to the extent that they are modified by the provisions of the *Land Settlement and Development Act*, the above statement of financial condition and relative revenue and expenditure statement are, in my opinion, properly drawn up so as to exhibit a true and fair statement of the position of the Board as at December 31, 1966, and the result of the operations for the year ended that date, according to the best of my information and the explanations given to me and as shown by the books of the Board.

REPORT BY BUTTAR & CHIENE, CHARTERED ACCOUNTANTS, VANCOUVER, B.C., UPON THE ACCOUNTS OF THE PACIFIC GREAT EASTERN RAILWAY COMPANY AS AT DECEMBER 31, 1966

We have examined the balance-sheet of the Pacific Great Eastern Railway Company as at December 31, 1966, and the statement of consolidated income for the year ended on that date and have received all the information and explanations required by us.

The statements for the current year are prepared in conformity with the Uniform Classification of Accounts prescribed by the Board of Transport Commissioners for Canada.

Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, and according to the best of our information, the explanations given to us and as shown by the books of the Company, the accompanying balance-sheet and statement of consolidated income present fairly the financial position of the Company as at December 31, 1966, and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the previous year.

Vancouver, B.C., February 8, 1967.

WORKMEN'S COMPENSATION BOARD—Continued**STATEMENT OF ASSETS AND LIABILITIES (FUND BALANCES)
AS AT DECEMBER 31, 1966—Continued****ACTUARY'S CERTIFICATE**

We certify that as at December 31, 1966, the following amounts, which were examined by us, make safe and reasonable provision for the applicable liabilities and were calculated upon accepted actuarial principles and factors including statistical ratios developed from past experience and the assumptions as to rates of interest, mortality, remarriage, and changes in the Consumer Price Index recommended or confirmed by us and adopted by the Board:

A. Accident Fund:	
(1) Present value of future payments on life or term pensions awarded to date	\$139,920,380
(2) Present value of future benefits not yet awarded in respect of accidents incurred to date	37,304,163
(The portion of this amount which is the present value of the increases, arising from the 1965 amendments to the Act, in future benefits not yet awarded for accidents incurred to December 31, 1965, is \$3,755,098.)	
B. Silicosis Fund:	
(1) Present value of future payments on life or term pensions awarded to date	6,519,762
(2) Present value of future benefits not yet awarded in respect of silicosis claims incurred to date	1,548,837

BYRON STRAIGHT & CO., *Consulting Actuaries.*

AUDITOR'S CERTIFICATE

The accounts of the Workmen's Compensation Board for the year ended December 31, 1966, have been examined under my direction and I have obtained all the information and explanations I have required.

The accompanying statement of assets and liabilities (fund balances) and the condensed statement of fund transactions are as shown by the books of the Board.

In my opinion, the accompanying statement of assets and liabilities (fund balances) and the condensed statement of fund transactions present fairly the financial condition of the Board as at December 31, 1966, and the results of its operations for the year then ended.

C. J. FERBER, C.A.,
Comptroller-General, Province of British Columbia.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the work.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources and timeline needed to complete them.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress regularly to ensure that the project is on track.

5. The final step is to evaluate the results of the project. This involves comparing the actual outcomes with the objectives and goals to determine the effectiveness of the project and identify areas for improvement.
